

Network visibility made elegantly simple.

The creators of Zeek (formerly known as Bro) designed the Corelight AP 1001 Sensor to do a single thing supremely well: deliver comprehensive, actionable visibility by transforming network traffic into high-fidelity data for your analytics pipeline.

Plug-and-play, configure in 15 minutes.

Corelight Sensors are zero maintenance and take only minutes to deploy: connect the traffic feed, specify where to send logs and extracted files, and you're done. Get new features via automatic updates and enterprise support from Zeek's creators.

Tuned for enterprise performance and scale.

Engineered from the ground up with keen attention to detail, Corelight Sensors are security-hardened and run a custom OS based on the Linux kernel. A specialized NIC provides the performance that large-scale deployments require, with built-in support for merging high-volume traffic feeds.

The features you wish open-source Zeek had.

Corelight has merged the power of Zeek with a suite of enterprise features that dramatically improve Zeek usability, like an intuitive management UI, sensor health metrics, fleet management, and automated data export to Splunk, Elastic, Kafka, Syslog, S3, and more.

AP 1001 Sensor (10Gbps)

Better network data. Deploy the Corelight AP 1001 Sensor for traffic analysis at speeds up to 10 Gbps.

Specifications

Best-in-class Zeek deployment in a compact 1U sensor:

- Engineered for stability and performance, by the creators of Zeek
- Four 1G/10G SFP/SFP+ interfaces in a powerful, specialized NIC
- Intuitive, 15-minute configuration, with a beautiful web app UI
- Zeek log export to Splunk, Elastic, Kafka, Syslog, SIEMs, and SFTP
- High performance and efficient file extraction
- Comprehensive REST API for configuration and monitoring
- Minimalist, custom OS optimized for secure operation
- Automatic updates and feature enhancements
- World-class support from the definitive Zeek experts

Corelight delivers the most powerful network security monitoring (NSM) solutions that help large organizations defend themselves by transforming network traffic into rich logs, extracted files, and security insights. Corelight makes a family of virtual, cloud, and physical sensors that take the pain out of deploying open-source Zeek and make it faster and enterprise-ready. Corelight's customers include Fortune 500 companies, government agencies, and research universities.

We make the **world's networks safer.**

AP 1001 Sensor (10Gbps)

Size and weight

1U rackmount
(19 x 25.6 x 1.75 inches), 40 lbs.

Monitoring interface

Four 1G/10G SFP/SFP+ modules.
Support for copper and optical modules at 1G and 10G.

Management interface

One 10/100/1000 copper ethernet port.

External connector

VGA, USB.

Power

120/240 VAC 50/60 Hz redundant dual PSUs. 700W at 110V or 750W at 220V. Approximately 180W usage when idle and 290W usage at load.

Operational mode

Out of band—fed by tap, span, or packet broker.
